

The Manchester Museum occupies a very fine range of Grade II Listed Buildings which establish an imposing frontage along the Oxford Road at the heart of the University of Manchester and house some of the most internationally pre-eminent and unique collections.

This £20 million part lottery funded project was completed in 2002/2003. The Museum remained open throughout and the works programmed carefully co-ordinated around this key requirement.

**Project Manager:**  
Appleyard & Trew LLP

**Architect:**  
Ian Simpson Architect

**Approximate Value:**  
£20 million (out-turn)
