

Phase 1

The project comprised the internal refurbishment and remodelling of the existing Kingsdale School. The works undertaken over 9 phases since 2002 and to a value of £12 million have transformed the school and provided a much improved learning environment to the benefit of the pupils.

Along with a vast atrium and improvements to classroom layouts and circulation space, the main features of the project are:-

- A new 300 seat auditorium
- A new hospitality and catering suite
- A new art department
- Science laboratories
